THE SOUTHERN FEVER AND THE
NORTHERN HEART.

The rage of the yellow fever in the South is extremely distressing. The disease is still rapidly increasing and hundreds of deaths are daily occurring. So far, it is worse than the epidemic of 1867 or 1873. This year it is more violent, more unconquerable, and consequently more fatal than in previous years. It is depopulating towns, filling cities with the reign of terror, and spreading distress on all hands.

In the North we have but a faint conception of the terribleness of the condition of things in several of the Southern towns and cities. It sickening to read even the daily telegraphic reports, and there can in nowise give us to understand the degree of distress and the depths of melancholy which prevails in the stricken districts. The Great Plague bids defiance to human skill, and the Grim Monster marches onward unchecked, cutting down entire families, Sisters of Mercy, clergymen, physicians, nurses, and everybody who happens to stand in his course.

This state of affairs has also created financial distress in the fever districts. The sick could not be nursed nor the dead buried without money. Business at these points was suspended, and immediately there came the Macedonian cry of, "Come and help us." The Northern heart was quickly aroused, and responded to the appeal for help. Tens of thousands of dollars were raised in a single week and transmitted by telegraph to the afflicted districts. Every town and city in the great North—the seat of patriotism, intelligence, wealth, and Christianity—contributed its share. Such a practical display of sympathy, such unselfish giving, can not be matched by any other people on earth. The people of the North did not let the sad memories of the past cool their sympathies or close their purses. They gave with a liberality which astonishes the world and challenges the profoundest admiration. We hope the South will not forget that in the North it has a friend ever ready and willing to respond to the cry for aid. The bitter and almost unconquerable hatred the South has displayed toward the people of the North for years, is not remembered against it, but for evil good has been returned.

The bitter and almost unconquerable hatred the South has displayed toward the people of the North for years, is not remembered against it, but for evil good has been returned. Already the North has contributed over \$200,000 for the relief of the yellow fever sufferers, while the districts in the South untouched by the plague, have virtually withheld all helping hand. We trust the South's affliction, and the North's magnanimous response in contributing aid, will do something toward strengthening the bonds of union and the ties of friendship between the two sections. Their interests should be one, and in the strife for a higher civilization, for greater prosperity, they should march hand in hand.

The editor of the City Times should keep posted on Democratic defalcations. He says he never heard of the Missouri case—a case in which the State Treasurer, a Democrat, is a defaulter to the amount of over one million of dollars. The Times seeks to keep behind "the huge credit mobilier fraud, Indian steals, and general reign of thievery and rank corruption under Grantism." Will the Times please tell us how much money the Government lost under Grantism? Let it give some instance of thievery and corruption, and when it gets through the job, Grant's administration will go down to history, as the most economical this country ever had. Considering the amount of money received and disbursed, there were fewer losses than under any President before him. Let the Times disprove this if it can.

The National banks are receiving the combined opposition of the Democrats and the Greenbackers. Why? They don't know why. They imagine the banks are a powerful monopoly, and want to crush them. Mr. Greenbacker, do you know that in the treasury vaults at Washington are \$349,500,700 in United States bonds to secure National bank circulation, and on which the government pays the banks the usual interest? The average rate of interest thus paid by the government to National banks is about seventeen millions a year. But on the other hand, what the banks pay in taxes—from eighteen to twenty-two millions a year. Therefore, while the banks receive seventeen millions a year from the government, they pay to the people in taxes from three to four millions more than they receive.

The Democrats have joined the Greenbackers in the howl that contraction was one of the chief causes in bringing about hard times. Every Democrat in Congress but one, voted for contraction in 1868. What a bright ornament consistency is to the Democratic party. It couldn't shine without it.

It was Andrew Jackson, who once said that a "paper currency is a great curse to any people, and a particular curse to the laborer of any country, for its depreciation always falls heaviest upon the laborer. Have the Democrats forgotten Jackson?

Thurman says he is consistent in his financial record, but the Cincinnati Commercial says he is the only one among forty millions of freemen who thinks as he does.

NEW ORLEANS, La., Sept. 2.—The following dispatch is just received:

PORT GIBSON, Miss., Sept. 2.—Four hundred cases and fifty-five deaths out of 555 persons remaining in town. About 1,200 persons have fled. The distress is very great. The sick are dying with no one to give them a drink of water. Some nurses are on the way from New Orleans and Chicago. Help and funds are needed.

JAMES A. GAGE.

President, Howard Association.

VICKSBURG, Miss., Sept. 2.—Weather clear and warm; thermometer, 94 degrees.

The Howard Association estimates between 1,500 and 2,000 sick, and increasing rapidly. Eight physicians report 110 new cases. It is estimated that there were over 200 new cases to-day. The deaths were 15 white, 4 black. Among them: James T. Doll, merchant, recently elected Mayor; Charles H. Nathan, jeweler, and J. W. Jolley.

Dr. Whitehead's condition is very critical but hopes are entertained of his recovery.

NEW ORLEANS, La., September 2.—Deaths from 12 m. yesterday to 12 m. to-day, 88.

NEW ORLEANS, La., September 2.—8 p.m.—Weather cloudy and threatening.

From noon to 6 p.m. twenty deaths were reported to the Board of Health. Total deaths from fever to date, 1,091, including 461 children under 11 years of age.

The Very Rev. Joseph Millet, Vicar General of the Archdiocese of New Orleans, died of yellow fever at 5 o'clock this evening, after six days' illness.

MEMPHIS, Tenn., Sept. 2, 9 p.m.—The Board of Health records show 81 new cases and 53 deaths for the 24 hours ending at 6 p.m.

Great difficulty is being experienced in getting carpenters to make coffins for the paper dead, and graves dug; but so far all the dead have been buried promptly, except in cases where persons have died unattended in sickness, and the corpse only been discovered through the efforts of the health officers and his assistants, as has been the case in several instances.

GRENADA, Miss., Sept. 2.—Five deaths to-day—Colonel W. J. Cole, one white man whose name I can't now learn, and three negroes.

There were six new cases to-day. The situation is unchanged, and the weather warm.

BRIEFLETS.

-Fair weather.
-Lively streets.
-General Shields is coming.
-Fair week but not a weak fair.
-The new buildings are being pushed rapidly to completion.
-Regular meeting of the Ancient Order of United Workmen this evening.

The school buildings have been put in excellent and cleanly condition for the gathering of children next Monday.

Next Saturday morning there will be a Teachers' meeting at the Central Building at 9 o'clock, for general business.

The telescope man is in town giving folks a chance to see spots on the sun for a nickel. It's all right if the spots are not on the glass.

The well on the High School grounds is caving in some. To prevent any further trouble a six-inch pipe is to be placed in it, and a pump used instead of the buckets.

Charlie Potter, the popular ticket-agent of the Northwestern road, is recovering from his sickness, and is about the streets again, though his shadow isn't a very heavy one yet.

The Chicago & Northwestern railroad will sell tickets until to-morrow, and good until the 9th instant, to Chicago and return, including a ticket to the Exposition, for \$4.35. Cheap enough.

G. A. Shurtliff will to-night open his restaurant next to Courard's grocery store, on Main street, and will be ready to serve up Riley's ice cream, and other edibles including candles, nuts, etc., to all who desire. Mr. Riley, who has sold out his business to Mr. Shurtliff, will remain with him for the time being at least, and this is a sufficient guarantee that the best of ice cream will be in readiness for customers. The new restaurant is fitted up cosily and will doubtless prove a popular resort.

THE FAIR.

The Grounds Present a Lively Appearance - The Fast-Flyers.

The Fair grounds to-day present a lively appearance. Teams are coming and going and exhibitors are busy arranging their displays, while committeemen are hurriedly looking after their several departments, so that with the going down of the sun, everything will be in readiness for the coming day. The exhibition promises to be a better one than has been anticipated even. There will be a great variety of interesting and instructive features, and there will be doubtless more than the usual number of visitors. The weather promises to be favorable, and everything seems encouraging for a successful fair.

The trot this year will be superior to any yet seen here. In the free-for-all will appear Lady Mack, who has the fastest five mile record ever trotted; Tempest who can trot her heats low in the twenties, and Doubleday's Resolute, who has spun over this tract in 2.26. Besides those fast flyers there will be the Whitewater Belle, who can trot in 2.30; James Lipe, said to be fast; Clara B., Surplus, Opal, Hickory-Daw, Rufe and many local horses. A pacing race is on the taps that will prove very exciting, introducing Griffith's pacer, Mrs. Raymonds, Capt. Tom Croft's and others.

Thursday will present a special attraction in the fact that Gen. Shields will deliver an address in the afternoon. No one can afford to miss this opportunity of seeing and hearing this grand old soldier and hero. It has been decided that the General shall be met at the depot by veterans of the late war, and by citizens, on his arrival on the noon train of the Northwestern road next Thursday. The Janesville Guards as a body will not appear in the procession, but such of its members as were in the late war will unite with the veterans in paying their respects to the honored gentleman.

BALL AND BAT.

The Chicagoans were again defeated yesterday by the Boston by 10 to 5, it being an exhibition game for the benefit of the yellow fever sufferers. The net receipts were \$681.

At Springfield, Mass., yesterday - Springfield 4, Manchester 0.

The Buffaloes defeated the Rochester yesterday 6 to 2.

The Cincinnati scored 6 and the Providence club 2 in yesterday's game.

The Indianapolis club defeated the Peorias yesterday 14 to 1.

The Forest Citys of Rockford, are charged with abusing the Lake Views of Chicago, most grossly. It is claimed that in vengeance the umpire was strongly tinctured with Rockfordism and that on the next day the Rockfords were so angry because they were defeated that they stoned their visitors and chased them to the hotel.

It is reported that Johnny Peters, captain of the Milwaukee, has been engaged as short stop for the Boston's next year.

Harry Wright will get up a nine for the Providence next year.

THE WORK OF MILTON COLLEGE.

As will be seen elsewhere by a list of those graduates of Milton College who are engaged in educational work, this institution is doing a highly creditable work in furnishing schools with able and successful teachers. The facts are highly complimentary, much more so than any words could be. These facts show that the institution is giving to its students a practical and thorough training, and that its influence is not merely poured into individual channels to be used for selfish purposes, but that it is being sent forth throughout this and other States. The record is a good one, and one of which Milton College and all of its friends and supporters should be proud. All of the educational interests are enhanced by this work done in Milton, and as long as it thus continues to send forth highly cultured and efficient workers and scholars, it will receive the hearty God-speed of the public. Its graduates are scattered among all the professions and walks of life, and they too have been no less successful than those who have entered upon educational work.

OBITUARY.

MRS. ELIZABETH RUTH BLOUNT.

About half past 5 o'clock this morning death claimed as its own Mrs. Elizabeth Ruth Blount, mother of Hon. J. A. Blount. Mrs. Blount was quite advanced in years, and in one month more would have celebrated her eighty-third birthday. She was born in Holderness, New Hampshire in 1795, and removed to this city thirty-one years ago. She was naturally retiring and was strongly attached to the home circle, and yet during her long residence here, she has won many true friends outside of her immediate relations who will be saddened at learning of her death and will sympathize deeply with the family in their bereavement. The funeral services will take place to-morrow afternoon at 3 o'clock at the residence Rev. Mr. Seward officiating.

The roll was called and all were present except Ald. Hemming.

Ald. Lawrence moved to suspend further proceeding under the call. Lost.

[From this point on all business was done under a call of the Council, and was clearly out of order, as the Council could not take a recess, entertain any motion, except to adjourn or with reference to the call, or transact any business while under the call.]

The Mayor declared that the appeal came too late and would not entertain it.

Ald. Lawrence moved to adjourn - Lost.

Ald. Fitzgibbon moved a call of the house. Adopted.

The roll was called and all were present except Ald. Hemming.

Ald. Lawrence moved to adjourn - Lost.

Ald. McKinney moved to adjourn. Lost.

Ald. Lawrence moved to appropriate \$5 to Ald. Church. Declared out of order.

Ald. Lawrence stated that Mr. Barnes

wanted to move a frame building to the side of Wright & Hunt's, on Milwaukee street, and moved that permission be granted. Indefinitely postponed.

Another motion to adjourn was lost, 4 to 5.

Ald. Joyce voting with the Republicans for adjournment.

Ald. Church moved to take a recess for ten minutes. Lost. 4 to 5.

Ald. McKinney moved a recess for five minutes. Adopted.

At the expiration of the five minutes the Mayor called order and all the members were present except Ald. Hemming.

Ald. Fitzgibbon moved that all the appointments be reconsidered.

The Mayor stated that he had made the appointments and Council had confirmed the same, that he was obliged to go home and retire, calling President Davies to the chair.

After the Mayor had retired and President Davies had taken up the gavel, Ald. McKinney moved in succession the reconsideration of the confirmation of the several appointments in each ward separately, except the First. This was adopted by a strictly party vote, and then as a whole. Each separate motion was sandwiched by a motion to adjourn, each of which was lost. After an entangling mass of motions and counter-motions, the suggestion was made that as the confirmation of nominations had been reconsidered, the President should present to the Council for their action such names as he saw fit. Ald. Lawrence called attention to the fact that the President was not and could not act as Mayor, while that officer was in the city. President Davies acquiesced in this statement and the matter was dropped.

On motion of Ald. Fitzgibbon, the Clerk was instructed to read the journal. The Clerk had failed to make a complete memorandum of the appointments, as announced by the Mayor, and the Board were lost as to what to do, and an adjournment was taken at twenty minutes to 12, until 8 o'clock this evening.
